

# *Álvaro Pérez Carasco*

My name is Alvaro my age 20. I came from Spain to Poland. Before I came to the sports club, I had some concerns.

Because I was not an athlete. I talked to the organization about what I was going to do about the job. Working in the media field of a sports club and dealing with the Erasmus programs was something I could do. In addition, the friendship I established with the football player from Spain and the citizens of my own country was very pleasing. In a short time, I came to the level of speaking Polish's own language.

In addition, the friendship I established with the football player from Spain and the citizens of my own country was very pleasing. In a short time, I came to the level of speaking Polish's own language.

Organization head Marcin Kaszubowski was very interested in the volunteers. Especially when there was a problem, he would listen to us and help us. In this way, I quickly developed the Polish language. I made many Polish friends. Since I was away from family, I was cooking my own food. I also had to manage my own money. I think I have improved myself a lot in so many different situations. I'm sorry that this beautiful Erasmus program is over. I will remember my experiences with fondness.
